

# 2022 - 2023 Support Organic Change Fund

As a not-for-profit organization, COTA relies heavily on contributions from donors like you to fund the important work that we do to promote and protect the organic industry. The Annual Fund supports COTA's key initiatives and enables COTA to lead the organic conversation on your behalf, through government relations, consumer education, research, and media outreach initiatives.

Your contribution will assist in funding this work and will help to ensure we reach our goal for 2023. Most importantly, it will help build a strong future for organic. Pledge your support and root for organic today!

- **\$20,000+** Philanthropist
